Student Affairs seeks to provide co-curricular support to assist in the success of all KSU Scholars.

Through collaboration across divisional units and the institution as a whole, Student Affairs is here to support KSU students from pre-entry to admission through matriculation via pre-college programs, enrollment management, academic support and advising, and student basic needs resources.

The division focuses on these core values:

- Premier customer service
- Superior dependability and accuracy
- Dedicated continuous improvement

Ultimately, through holistic, ongoing support and development, KSU Scholars "Enter to Learn and Exit to Serve"

The Division of Student Affairs includes Admissions, Financial Aid, Student Success, Student Wellness and Experience, Career Services, Student Support Services, and Upward Bound.
