UNIVERSITY**

# NETWORK ASSOCIATE CERTIFICATE

---

The School of Mathematics and Computer Science offers a course of study leading to a Certificate of Network Associate. The Certificate is available to students, regardless of major, who complete the specified coursework, and while prior technical/security experience, training, or education may be beneficial, other than additional courses that may be delineated.

This certificate is for students wishing to work in the field of information technology as a network associate. The concepts and skills acquired in this program may assist a student to sit for the internationally recognized Cisco CCNA certification. All courses must be passed with a "C" or better. The Certificate requires the completion of:
