

**KENTUCKY STATE
UNIVERSITY**

NURSING (NUR)

NUR 099: Introduction To Nursing

A developmental course designed to introduce pre-nursing students to the role of an associate degree nurse and the rigors of the nursing curriculum. Course content will assist students in identifying learning strategies which will promote their success if they are accepted into the nursing program. (Does not count toward degree requirements.)

Credit Hours: 3

Contact Hours: 3

NUR 100A: Basic Pharmacotherapeutics

Introduces the major concepts of pharmacotherapeutics, establishing a knowledge base that applies to patient care and education.

Prerequisite: Must be accepted by the School of Nursing into the Associate of Applied Science program or have consent of the instructor

Credit Hours: 2

Contact Hours: 2

NUR 103: Transition to Assoc Deg in Nur

Assists the Licensed Practical Nurse to move into the role of the associate degree nurse. Includes selected content on physical and psychological needs.

Prerequisite: LPN license and admission to the Nursing program

Credit Hours: 3

Contact Hours: 3

NUR 104A: Health Assessment

Provides the students with the knowledge necessary to perform a comprehensive health assessment utilizing the skills of history taking, inspection, palpation, percussion, and auscultation. Requires concurrent registration in NUR 105, NUR 105L. If the student drops or withdraws from NUR 105 or NUR 105L the student must also drop or withdraw from NUR 104.

Prerequisite: Must be accepted by the School of Nursing into the Associate of Applied Science program or have consent of the instructor

Credit Hours: 3

Contact Hours: 3

NUR 105A: Intro to Nursing Practice

Provides an introduction to fundamental concepts of nursing, process and practice. Requires concurrent registration in NUR 104A & NUR 105AP. If the student drops or withdraws from NUR 104A or NUR 105AP the student must also drop or withdraw from NUR 105A. Credit: 3 semester hours.

Prerequisite: Admission to the major or consent of the instructor

Credit Hours: 3

Contact Hours: 3

NUR 105AP: Intro to Nursing Practice Prac

Application of fundamental nursing skills using simulated patient care scenarios within a laboratory environment. Requires concurrent registration in NUR 104A & NUR 105A. If the student drops or withdraws from NUR 104A or NUR 105A the student must also drop or withdraw from NUR 105AP. Credit: 1 semester hour.

Prerequisite: Admission to the major or consent of the instructor

Credit Hours: 1

Contact Hours: 1

NUR 111: Nursing I

Focus on basic human needs and development, interpersonal relationships, and beginning skills of patient care. Clinical laboratory experience provided. (Five hours of lecture and six hours of clinical laboratory per week) This course is used to evaluate the oral communication competency.

Prerequisite: Admission to Nursing program

Credit Hours: 7

Contact Hours: 11

NUR 112: Nursing II

Application of scientific nursing principles and techniques, therapeutic relationships, and behavioral concepts essential to psychiatric and general hospital patients. (Five hours of lecture, six hours of clinical laboratory per week)

Prerequisite: NUR 111

Credit Hours: 7

Contact Hours: 11

NUR 114A: Adult Health I

Designed to assist the student to integrate prior knowledge and advanced scientific principles in providing preventative, restorative, and maintenance/supportive care to adult clients and families experiencing common medical/surgical health alterations in selected settings.

Requires concurrent registration in BIO 204 or NUR 114A. If the student drops or withdraws from BIO 204 or NUR 114A, the student must also withdraw or drop from NUR 114AP. Credit: 4 semester hours.

Prerequisite: Admission to the major, BIO 109, NUR 100A, NUR 104A, NUR 105A, & NUR 105AP

Credit Hours: 4

Contact Hours: 4

NUR 114AP: Adult Health I Practicum

Student-designed experience focusing on the role of the registered nurse as the provider and manager of care to adult clients and families in selected practice settings under the direct supervision of a clinical professional. Requires concurrent registration in BIO 204 or NUR 114A. If the student drops or withdraws from BIO 204 or NUR 114A, the student must also withdraw or drop from NUR 114AP. Credit: 3 semester hours.

Prerequisite: Official acceptance into the Associate of Applied Science in Nursing Program, BIO 109, NUR 100A, NUR 104A, NUR 105A, & NUR 105AP

Credit Hours: 3

Contact Hours: 3

NUR 115A: Behavioral Health

Principles and concepts of mental and behavioral health, psychopathology, and treatment modalities as they relate to the nursing care of individuals, families and groups. Requires concurrent registration in BIO 204 & NUR 114A. If the student drops or withdraws from BIO 204 or NUR 115AP, the student must also withdraw or drop from NUR 115AP. Credit: 3 semester hours.

Prerequisite: Admission to the major, BIO 109, NUR 100A, NUR 104A, NUR 105A, & NUR 105AP

Credit Hours: 3

Contact Hours: 3

NUR 115AP: Behavioral Health Practicum.

Student-designed experience focused on the role of the registered nurse as a provider and manager of care for individual, families, and groups with behavioral or mental health challenges in selected practice settings under the direct supervision of a clinical professional. Requires concurrent registration in BIO 204 & NUR 114A. If the student drops or withdraws from BIO 204 or NUR 115AP, the student must also withdraw or drop from NUR 115AP. Credit: 2 semester hours.

Prerequisite: Admission to the major, BIO 109, NUR 100A, NUR 104A, NUR 105A, & NUR 105AP

Credit Hours: 2

Contact Hours: 2

NUR 118: Nursing Independent Study

Credit Hours: 3

Contact Hours: 3

NUR 200B: Intro to Genetics & Mol. Thera

This course provides an introduction to organization of the human genome and basic principles of inheritance in humans; cells and development, chromosome structure and function, gene structure and function, genes in pedigrees and populations, implications of genetic variation on health; and genetic-driven therapeutics. Credit: 3 semester hours.

Credit Hours: 3

Contact Hours: 3

NUR 204A: Maternal Newborn Health

Principles and concepts of health and illness, psychopathology, and treatment modalities as they relate to the nursing care of families during the antepartum, intrapartum, postpartum, and newborn periods. Pre-requisites: Good standing in a School of Nursing program, BIO 109, BIO 204, NUR 100A, NUR 104A, NUR 105A, NUR 105AP, NUR 114, NUR 114AP, NUR 115A, NUR 115AP. Requires concurrent registration in PSY 303 and NUR 204AP. If the student drops or withdraws from NUR 204AP the student must also drop or withdraw from NUR 204A.

Credit Hours: 3

Contact Hours: 3

NUR 204AP: Maternal Newborn Health Practi

Student-designed experience focusing on the role of the registered nurse as the provider and the manager of care for maternal clients, and their families during antepartum, intrapartum, postpartum, and newborn periods in selected practice settings under the direct supervision of a clinical professional. Pre-requisites: Good standing in a School of Nursing program, BIO 109, BIO 204, NUR 100A, NUR 104A, NUR 105A, NUR 105AP, NUR 114, NUR 114AP, NUR 115A, NUR AP. Requires concurrent registration in PSY 303 and NUR 204A. If the student drops or withdraws from NUR 204A the student must also drop or withdraw from NUR 204AP.

Credit Hours: 2

Contact Hours: 2

NUR 205: Pharmacological Concept in Nur

This course will assist students with study skills, self-guided study of current nursing concepts and placement in the program; discuss simulation opportunities and collaborate with nursing lab coordinator for possible laboratory time for self-guided review of skills. Credit: 3 semester hours.

Credit Hours: 3

Contact Hours: 3

NUR 205A: Pediatric Health

Principles and concepts of pediatric health, psychopathology, and treatment modalities as they relate to the nursing care of children (infancy through adolescence) and their families. Pre-requisites: Good standing in a School of Nursing program, BIO 109, BIO 204, NUR 100A, NUR 105A, NUR 105AP, NUR 114, NUR 114AP, NUR 115A, NUR 115AP. Requires concurrent registration in PSY 303 and NUR 205AP. If the student drops or withdraws from NUR 205AP the student must also drop or withdraw from NUR 205A.

Credit Hours: 3

Contact Hours: 3

NUR 205AP: Pediatric Health Practicum

Student-designed experience focusing on the role of the registered nurse as the provider and manager of care for pediatric clients and their families in a variety of practice settings under the direct supervision of a clinical professional. Pre-requisites: Good standing in a School of Nursing program, BIO 109, BIO 204, NUR 100A, NUR 104A, NUR 105A, NUR 105AP, NUR 114, NUR 114AP, NUR 115A, NUR 115AP. Requires concurrent registration in PSY 303 and NUR 205A. If the student drops or withdraws from NUR 205A the student must also drop or withdraw from NUR 205AP.

Credit Hours: 2

Contact Hours: 2

NUR 211: Nursing III

Preparation for giving family/centered nursing care and applying nursing principles/techniques in maternal care during maternity cycle/child care from conception through adolescence. (Six hours of lecture, nine hours of clinical laboratory per week)

Prerequisite: NUR 112

Credit Hours: 9

Contact Hours: 15

NUR 212: Nursing IV

Focus on developing a coordinated approach to planning and implementing nursing care for patients with major health disorders. (Six hours of lecture, twelve hours of clinical laboratory per week)

Prerequisite: NUR 211

Credit Hours: 10

Contact Hours: 18

NUR 213: Nursing V

Seminar discussion of issues and trends in nursing, legal and ethical components, job opportunities, career satisfaction, continuing education, and professional responsibilities. (Two hours of lecture per week.)

CREDIT: 2 SEMESTER HOURS.

Prerequisite: NUR 211

Credit Hours: 2

Contact Hours: 2

NUR 214A: Adult Health II

Designed to assist the student to integrate prior knowledge and advancing scientific principles in providing preventative, restorative, and maintenance/supportive care to adult clients and families experiencing complex health alterations in selected settings. Requires concurrent registration in NUR 214AP, NUR 215A & NUR 216A. If the student drops or withdraws from NUR 214A, the student must also withdraw or drop from NUR 214AP, NUR 215A & NUR 216A. Credit: 4 semester hours.

Prerequisite: Good standing in the major, BIO 109, BIO 204, PSY 303, NUR 100A, NUR 104A, NUR 105A, NUR 105AP, NUR 114A, NUR 114AP, NUR 115A, NUR 115 AP, NUR 204A, NUR 204AP, NUR 205A, NUR 205AP

Credit Hours: 4

Contact Hours: 4

NUR 214AP: Adult Health II Inst. Pract.

Student-designed experience focusing on the role of the registered nurse as the provider and manager of care for adult clients and their families in selected practice settings under the direct supervision of a clinical professional. Good standing in the major, BIO 109, BIO 204, PSY 303, NUR 100A, NUR 104A, NUR 105A, NUR 105AP, NUR 114A, NUR 114AP, NUR 115A, NUR 115 AP, NUR 204A, NUR 204AP, NUR 205A, NUR 205AP . Requires concurrent registration in NUR 214A, NUR 215A & NUR 216A. If the student drops or withdraws from NUR 214AP, the student must also withdraw or drop from NUR 214A, NUR 215A & NUR 216A. Credit: 3 semester hours

Credit Hours: 3

Contact Hours: 3

NUR 215A: Synthesis Concept

Provides a comprehensive and integrated review of the AAS in nursing curriculum with a broad range of assessment tools to evaluate student knowledge and skills as a final preparation before writing the NCLEX-RN®. Requires concurrent registration with NUR 214A. If the student drops or withdraws from NUR 214A, the student must drop or withdraw from NUR 215A. Credit: 2 semester hours.

Credit Hours: 2

Contact Hours: 2

NUR 216A: Professionalism in Nursing

Seminar discussion of issues and trends in professional nursing practice, transition into the workplace, nursing leadership and management, employment opportunities, continuing education, and professional responsibilities. Requires concurrent registration in NUR 214A. If the student drops or withdraws from NUR 214A, then the student must drop or withdraw from NUR 216A. Credit: 2 semester hours

Credit Hours: 2

Contact Hours: 2

NUR 301R: Info. Mgmt. & Tech.

Examination of informatics in health care emphasizing clinical information systems, utilization of informatics and the use of health care technologies in the management of individuals, groups and organizations for the improvement of patient outcomes. Credit: 3 credit hours.

Prerequisite: NUR308R, NUR309R, NUR325R, NUR425R

Credit Hours: 3

Contact Hours: 3

NUR 302R: Gerontological Nursing

This course provides an overview of the aging process, while emphasizing nursing competence when using evidence-based assessments and interventions. Credit: 3 semester hours.

Prerequisite: Successful completion of NUR 325R

Credit Hours: 3

Contact Hours: 3

NUR 308R: Intro to Human Genetics

Topics covered include the nature of genetic material, transmission, gene expression, gene regulation, genetic variation, and genetics & society.

Credit: 3 semester hours.

Prerequisite: Acceptance by the School of Nursing into a Baccalaureate Program

Credit Hours: 3

Contact Hours: 3

NUR 309R: Health Dis. & Cultural Comp.

This course will examine both analytical and practical approaches to cultural competency in public health. Concepts, models, frameworks, and communication that occur in cross-cultural health situations will be discussed, but also the application of these concepts in real interventions and programs. Credit: 3 semester hours.

Prerequisite: Acceptance by the School of Nursing into a Baccalaureate Program

Credit Hours: 3

Contact Hours: 3

NUR 321: Professional Role Transitions

This course provides an examination of the professional role transition from ADN to BSN graduate.

Credit Hours: 3

Contact Hours: 3

NUR 321R: Professional Role Transitions

This course provides an examination of the professional role transition from ADN to BSN graduate.

Credit Hours: 3

Contact Hours: 3

NUR 322: Nursing Assessment

This course builds on RS students' prior knowledge and clinical experience in developing more complex, comprehensive assessment skills.

Credit Hours: 3

Contact Hours: 3

NUR 322R: Nursing Assessment

This course builds on RS students' prior knowledge and clinical experience in developing more complex, comprehensive assessment skills.

Credit Hours: 3

Contact Hours: 3

NUR 323: Application of Nursing Theory

In this course, RN students will examine perspectives on nursing trends, theories, and philosophies.

Credit Hours: 2

Contact Hours: 2

NUR 324: Patho/Pharm in Nursing Care

This course provides a pathophysiologic approach to pharmacology and an overview of drug approval, pharmacokinetics, and pharmacodynamics for the practicing registered nurse.

Credit Hours: 4

Contact Hours: 4

NUR 325: Teaching and Learning

This course introduces teaching and learning concepts for the practicing registered nurse across a diverse lifespan in a healthcare setting.

Credit Hours: 1

Contact Hours: 1

NUR 325B: Intro. to Healthcare Info.

Provides a conceptual foundation for understanding healthcare informatics and includes analysis of various applications of information systems within the context of the health care system. Emphasis is placed on the nurses' role in advanced quality of care. Required for all pre-licensure nursing majors. Credit: 3 semester hours.

Prerequisite: ENG 101, ENG 102, PSY 200, & ALH 205

Credit Hours: 3

Contact Hours: 3

NUR 325R: Public Health Nursing

This course is designed to integrate knowledge from nursing theory and public health science in assessing the health care needs of aggregates, communities, and society. Credit: 3 semester hours.

Prerequisite: Acceptance by the School of Nursing into a Baccalaureate Program

Credit Hours: 3

Contact Hours: 3

NUR 325RP: Public Health Nursing Practicum

NUR 325RP: In this practicum course, RN students will apply knowledge from nursing theory and public health science to assess and evaluate population health trends and explore principles relevant to community health nursing including public health, epidemiology, and environmental health. Addresses impact of healthcare policies on healthcare disparities.

Credit Hours: 1

Contact Hours: 1

NUR 326: Community Support Systems

This course discusses trending public health issues and requires completing 12 hours of observational learning experience in a variety of community healthcare settings.

Credit Hours: 4

Contact Hours: 4

NUR 330B: Hea. Assess. & Comm. Acr. Life

Description: Assessment and communication skills; development and application of cognitive skills to perform systematic, holistic, and culturally competent health assessments; emphasis on application of clinical reasoning involving assessment, nursing diagnoses, interventions, and outcomes.

Prerequisite: Admission to the major

Credit Hours: 4

Contact Hours: 4

NUR 340B: Nurs. Care of Adu. w/ Ac. Chr.

Description: Presentation of biological, psychological, socio-environmental, and spiritual concepts that inform basic nursing and pharmacological interventions for selected disorders and/or diseases. Requires concurrent registration in NUR 340BP, NUR 341B. If the student drops or withdraws from NUR 340BP or NUR 341B, the student must also drop or withdraw from NUR 340B.

Prerequisite: Admission to the major

Credit Hours: 4

Contact Hours: 4

NUR 340BP: Nur. Car. of Adul. w/ AC Pract

Description: In-depth clinical and laboratory-based experiences; application of basic and complex concepts of nursing care for adults of all ages in a variety of settings. Requires concurrent registration in NUR 340B, NUR 341B. If the student drops or withdraws from NUR 340B or NUR 341B, the student must also drop or withdraw from NUR 340BP.

Prerequisite: Admission to the major

Credit Hours: 3

Contact Hours: 3

NUR 341B: Profess. & Patient Safety

Focuses on helping aspiring healthcare professionals improve patient safety by developing the competencies associated best practice outcomes. Emphasis is placed on the role of interprofessional collaborative practice in patient safety, quality management and quality improvement. Prerequisite: Admission to the major. Requires concurrent registration in NUR 330B, NUR340B, NUR340BP. If the student drops or withdraws from NUR 330B, NUR340B, or NUR340BP, the student must also drop or withdraw from NUR341B. Credit: 2 semester hours.

Credit Hours: 2

Contact Hours: 2

NUR 345B: Nurs. Care in Behav. Health

Description: Focus is on the roles of the professional nurse as provider of care; designer, coordinator, and manager of care; and member of the profession in caring for diverse individuals and populations experiencing psychiatric and mental health stressors. Requires concurrent registration in NUR 345BP, NUR 421B. If the student drops or withdraws from NUR 345B or NUR 421B, the student must also drop or withdraw from NUR 345BP.

Prerequisite: NUR 330B, NUR 340B, NUR 340BP, NUR 341B

Credit Hours: 3

Contact Hours: 3

NUR 345BP: Nursing Care Beh. Hea. Prac.

Description: In-depth clinical and laboratory-based experience; application of basic and complex concepts of behavioral health nursing care to diverse clients across the age spectrum. Requires concurrent registration in NUR 345B, NUR 421B. If the student drops or withdraws from NUR 345B or NUR 421B, the student must also drop or withdraw from NUR 345BP.

Prerequisite: NUR 330B, NUR 340B, NUR 340BP, NUR 341B

Credit Hours: 2

Contact Hours: 2

NUR 401: Transcultural Nursing

Transcultural nursing principles related to culturally competent health care. Examination of different cultures and subcultures, health care benefits and values affecting health care delivery. The course includes group experiences related to cultural diversity.

Prerequisite: RN status

Credit Hours: 2

Contact Hours: 2

NUR 404: Teaching/Learning in Nursing

Discussion of basic principles of teaching and learning. Students will identify client and/or student learning needs and develop and evaluate a teaching plan.

Prerequisite: RN status

Credit Hours: 2

Contact Hours: 2

NUR 405B: Nurs. Care of Wom. Chil. & Fam

Description: Focus is on the roles of the professional nurse as provider of care; designer, coordinator, and manager of care; and member of the profession in caring for diverse individuals and families during the childbearing and childrearing phases of family development. Requires concurrent registration in NUR 405BP, NUR 421B. If the student drops or withdraws from NUR 405BP or NUR 421B, the student must also drop or withdraw from NUR 405B.

Prerequisite: NUR 330B, NUR 340B, NUR 340BP, NUR 341B

Credit Hours: 3

Contact Hours: 3

NUR 405BP: Nur. Care of W, C, F Pract.

In-depth clinical and laboratory-based experience; application of basic and complex concepts of maternal and child health. Requires concurrent registration in NUR 405B, NUR 421B. If the student drops or withdraws from NUR 405B or NUR 421B, the student must also drop or withdraw from NUR 405BP.

Prerequisite: NUR 330B, NUR 340B, NUR 340BP, NUR 341B

Credit Hours: 2

Contact Hours: 2

NUR 407: Nursing Research

An introduction to the basic concepts of the research process and statistical analysis of research data. Students will be expected to conduct a small research study, discuss the research process and research ethics, analyze current nursing research, and write a research report.

Prerequisite: RN status

Credit Hours: 2

Contact Hours: 2

NUR 408: Drug Therapy in Nursing

An examination of pharmacotherapeutic agents across the life span. Discussion of the major classes of pharmacotherapeutic agents and nursing implications. Students will write a teaching plan for safe and effective medication administration for selected clients.

Prerequisite: RN status

Credit Hours: 2

Contact Hours: 2

NUR 410: Senior Capstone Seminar

A capstone experience for majors focusing on analysis of issues impacting professional nursing practice in a changing health care system. Taught second eight weeks of semester.

Credit Hours: 2

Contact Hours: 2

NUR 412: Vulnerable Populations

Examination of individuals and groups identified as under-served with regard to health care, including access and education. The homeless, mentally ill, chronically ill, and minorities will be among the groups examined. Clinical focus: Public health issues and a vulnerable population of student interest. Three hours clinical practicum and two hours lecture per week. Taught first eight weeks of semester.

Prerequisite: RN status

Credit Hours: 3

Contact Hours: 5

NUR 413: Nursing Leadership

Nursing leadership and management principles and their application to professional nursing practice. The concepts of decision making, priority setting, delegating, conflict resolution, and management of nursing care will be discussed. Three hours clinical practicum and two hours lecture per week. Taught second eight weeks of semester

Prerequisite: RN status

Credit Hours: 3

Contact Hours: 5

NUR 415R: Pathophysiology for Nursing

Credit Hours: 3

Contact Hours: 3

NUR 417R: Pharmacology for Nurses

Credit Hours: 3

Contact Hours: 3

NUR 421: Nursing Informatics

this course proves a fundamental understanding of nursing informatics to inform quality and safety patient outcome measures.

Credit Hours: 2

Contact Hours: 2

NUR 421B: Prof. Role 2: Imp. Hea. System

Develop basic knowledge of global healthcare systems and models, including healthcare policy and economics, and their influence on health disparities and delivery of healthcare. Requires concurrent registration in NUR 345B, NUR 345BP, NUR 405B, and NUR 405 BP. If the student drops or withdraws from NUR 345B or NUR 405B, the student must also drop or withdraw from NUR 421B.

Prerequisite: NUR 330B, NUR 340B, NUR 340BP, NUR 341B

Credit Hours: 2

Contact Hours: 2

NUR 422: Nursing Research and EBP

this course provides a basic understanding of the research process and evidence-based practice (EBP) for the practicing registered nurse.

Credit Hours: 3

Contact Hours: 3

NUR 423: Transcultural Nursing

This course compares and contrasts the values, beliefs, and behaviors of diverse cultures/subcultures in a wide variety of healthcare settings.

Credit Hours: 3

Contact Hours: 3

NUR 424: Nursing Leadership

This course explores leadership role responsibilities while completing 12 hours of observational learning experience in a professional nursing leadership role.

Credit Hours: 4

Contact Hours: 4

NUR 425: Gerontological Nursing

This course provides an overview of the aging process, while emphasizing nursing competence when using evidence-based assessments and interventions.

Credit Hours: 3

Contact Hours: 3

NUR 425R: Gerontological Nursing

This course provides an overview of the aging process, while emphasizing nursing competence when using evidence-based assessments and interventions. Credit: 3 semester hours.

Prerequisite: Successful completion of NUR 325R

Credit Hours: 3

Contact Hours: 3

NUR 426: Senior Capstone Seminar

This course focuses on analysis of issues impacting professional nursing practice in a changing health care system.

Credit Hours: 3

Contact Hours: 3

NUR 430R: Topics in Clinical Nursing

Students analyze and examine evidentiary data related to the provision of quality health care.

Credit Hours: 3

Contact Hours: 3

NUR 431R: Information Mang. & Pat. Care

Examination of informatics in health care emphasizing clinical information systems, utilization of informatics and the use of health care technologies in the management of individuals, groups and organizations for the improvement of patient outcomes.

Credit Hours: 3

Contact Hours: 3

NUR 432R: Nursing Res. & Evid. Base. Pra

This course provides a basic understanding of the research process and evidence-based practice (EBP) for the practicing registered nurse. Credit: 3 semester hours.

Prerequisite: All 300-level NUR classes

Credit Hours: 3

Contact Hours: 3

NUR 434R: Nursing Leadership

This course explores leadership role responsibilities. Credit: 3 semester hours.

Prerequisite: NUR308R, NUR309R, NUR325R, NUR425R, NUR430R, NUR431, NUR432

Credit Hours: 3

Contact Hours: 3

NUR 434RP: Nursing Lead. Pract.

Credit Hours: 1

Contact Hours: 1

NUR 435R: Nursing in Global Healt. Sys.

Introduction to global health care systems and models, and their influence on health disparities and delivery of healthcare. Credit: 3 semester hours.

Prerequisite: NUR308R, NUR309R, NUR325R, NUR425R, NUR430R, NUR431, NUR432

Credit Hours: 3

Contact Hours: 3

NUR 436R: Senior Capstone Seminar

Course focuses on analysis of issues impacting professional nursing practice in a changing health care system. Credit: 3 semester hours.

Prerequisite: NUR308R, NUR309R, NUR325R, NUR425R, NUR430R, NUR431, NUR432

Credit Hours: 3

Contact Hours: 3

NUR 440B: Nurs. Care of Adu. w/ Com. H.

Presentation of biological, psychological, socio-environmental, and spiritual concepts that inform complex nursing and pharmacological interventions for selected disorders and/or diseases. Requires concurrent registration in NUR 440BP, NUR 451B. If the student drops or withdraws from NUR 440BP or NUR 451B, the student must also drop or withdraw from NUR 440B.

Prerequisite: NUR 345B, NUR 345BP, NUR 405B, NUR 405BP, NUR 421B

Credit Hours: 5

Contact Hours: 5

NUR 440B9: Nurs. Car. of Adu. w/ Com. Pra

Nursing Care of Adults with Complex Health Disorders Practicum. In-depth clinical and laboratory-based experiences; application of basic and complex concepts of nursing care for adults of all ages in a variety of settings. Requires concurrent registration in NUR 440B, NUR 451B. If the student drops or withdraws from NUR 440B or NUR 451B, the student must also drop or withdraw from NUR 440BP

Prerequisite: NUR 345B, NUR 345BP, NUR 405B, NUR 405BP, NUR 421B

Credit Hours: 3

Contact Hours: 3

NUR 440BP: Nurs. Car. of Adu. w/ Prac.

In-depth clinical and laboratory-based experiences; application of basic and complex concepts of nursing care for adults of all ages in a variety of settings. Requires concurrent registration in NUR 440B, NUR 451B. If the student drops or withdraws from NUR 440B or NUR 451B, the student must also drop or withdraw from NUR 440BP.

Prerequisite: NUR 345B, NUR 345BP, NUR 405B, NUR 405BP, NUR 421B

Credit Hours: 3

Contact Hours: 3

NUR 450B: Nursing Care of Older Adults

Provides an opportunity to explore the area of gerontological nursing, a field of nursing that focuses on the care of older adults. Requires concurrent registration in NUR 440B, NUR440BP, NUR450BP. If the student drops or withdraws from NUR 440B, NUR440BP, or NUR450BP the student must also drop or withdraw from NUR450B. Credit: 2 semester hours.

Prerequisite: NUR330B, NUR340B, NUR340BP, NUR341B, NUR345B, NUR345BP, NUR405B, NUR405BP, & NUR421B

Credit Hours: 2

Contact Hours: 2

NUR 450BP: Nursing Care of Older Adults

This course is a study of the unique health care needs of older adults. Content includes the developmental, physiological, and psychosocial changes of the older adult in regard to health promotion, maintenance, and restoration. The course will emphasize the application of knowledge, skills, and attitudes within a legal/ethical framework. Credit: 2 semester hours.

Credit Hours: 2

Contact Hours: 2

NUR 451B: Prof. Role 3: Nur. Resch.

Emphasis on the research process and how as consumers of nursing research baccalaureate nurses apply the research process to practice. Requires concurrent registration in NUR 440B, NUR440BP, NUR450B, and NUR450BP. If the student drops or withdraws from NUR 440B, NUR440BP, NUR450B, or NUR450BP, the student must also drop or withdraw from NUR451B. Credit: 2 semester hours.

Prerequisite: Admission to the major

Credit Hours: 2

Contact Hours: 2
